

Anchors

Not listed? Please contact STRUCTURE® magazine at guides@STRUCTUREmag.org with your company information. We will be sure to include you in the 2008 Guide reminders. All Resource Guides and Updates for the 2008 Editorial Calendar are now available on the website, www.STRUCTUREmag.org. Sign up for any of the Guides today! Listings are provided as a courtesy. STRUCTURE magazine is not responsible for errors.

BLOK-LOK Ltd. - **Masonry Anchors, Ties & Reinforcing** - North America's leading producers of masonry anchors, ties & joint reinforcing, also manufactures a complete line of masonry repair anchors for façade stabilization, including SPIRA-LOK Stainless Steel helical wall ties, TORQ-LOK mechanical anchors as well as PANEL-LOK stone panel anchors. Helping you build better walls for over 45 years! www.blok-lok.com.

Chance Civil Construction - **CHANCE® Helical Piles and Atlas Resistance® Piers** - CHANCE® Helical Piles and Atlas Resistance® Piers – Both CHANCE® and ATLAS™ brands now are offered by Chance Civil Construction. CHANCE Helical piles and ATLAS Resistance® piers are used worldwide to secure residential and commercial buildings, tower foundations, heavy equipment foundations and many other deep foundation applications.

Cintec North America - **Cintec anchoring system** - An Anchoring system designed for each application. From 3 inches to over 100 feet long, fire proof, uses no resins and is environmentally friendly. For further information and engineering manual refer to our web site www.cintec.com.

Five Star Products Inc. - **Five Star HP Anchor Gel** - Anchor rebar, anchor bolts, threaded rod and epoxy coated smooth dowels. Also used to grout bolts, dowels and pins in vertical and overhead installations. **RS Anchor Gel** - Rapid setting, two component, 100% solids structural epoxy for anchoring rods, bars and bolts in concrete. A nonsag, moisture insensitive epoxy adhesive for vertical and horizontal installations. info@fivestarprom.com.

Foresight Products, LLC - **MANTIA RAY™ and STINGRAY™**, driven tipping plate earth anchor tieback systems for shoring, bulkheads, retaining walls, SRWs, foundation augmentation and stabilization applications with a working range up to 65 kips. No guesswork – load tested during installation. Contact us at (800) 325-5360 or sales@earthanchor.com

Halfen Anchoring Systems - Halfen Anchoring Systems is a global leader in anchoring solutions. A full line of pre-engineered systems with built-in adjustability are available for faster, easier installation of building façades, curtain wall, structural components, and equipment. Cast-in channels and T-bolts to resist high loads are available in galvanized or stainless steel. www.HalfenUSA.com.

Heckmann Building Products, Inc. - **The Thermal Wing-Nut Pos-I-Tie Brick Veneer Anchoring System** -The Wing Nut is made from a high quality proprietary plastic material which acts as a thermal bridge, decreasing the thermal transfer through insulation. Available in several lengths for different sheathing conditions. See www.heckmannanchors.com or call 800-621-4140 for more information.

HIT RE 500-SD - **Adhesive Anchor for Strength Design** - HIT RE 500-SD offers a strength design solution in compliance with 2003 and 2006 IBC. HIT RE 500-SD (ICC ESR-2322) supports threaded rod and rebar applications in cracked concrete, seismic design categories A-F and offers more flexibility with deep embedments up to 20X rod/rebar diameter. For more information, visit www.us.hilti.com.

ITW Red Head - **Concrete Anchoring Systems** - For over 90 years, Red Head has been America's most trusted mechanical and adhesive anchoring systems manufacturer, providing reliable, highly engineered products with innovative anchoring solutions in the nation's most demanding construction applications. www.itwredhead.com.

Concrete Anchoring Systems - Coming soon...“Power-Calc Plus” anchor calculator software based on Strength Design procedures per ACI318 Appendix D. This tool is guaranteed to save countless hours of number crunching when compared to calculations performed by hand. www.powers.com.

SFS intec, Inc. - **Engineered Fastening Systems** - WT Self Drilling Lag Screw for concealed wood to wood structural connections. www.sfsintecusa.co

Williams Form Engineering Corp - Williams Form Engineering Corporation has been providing threaded steel bars and accessories for rock anchors, soil anchors, high capacity concrete anchors, micro piles, tie rods, tie backs, strand anchors, hollow bar anchors, post tensioning systems, and concrete forming hardware systems in the construction industry for over 85 years. <http://www.williamsform.com>.

USP Structural Connectors - USP's epoxy and mechanical anchoring products include all weather, standard and fast cure, crack injection resins, grout, and undercut anchors. Achievements include our DUC Undercut Anchor being the first in the nation to be listed by ICC ES approved for Seismic and Cracked Concrete in the 2006 IBC and IRC. www.uspconnectors.com.
