COMPANY	DESCRIPTION	ANCHOR BOLTS	CONCRETE ANCHORS	FACADE ANCHORS	GENERAL HARDWARE & TIES	GEOTECHNICAL ANCHORS	MASONRY ANCHORS	POST-TENSIONING	REINFORCING ANCHORS	UTILITY ANCHORS	OTHER	
A.B. Chance Company Phone: 573-682-8414 Email: glseider@hps.hubbell.com Web: www.abchance.com	CHANCE Helical Anchors			X		X		X	X	X	Soil Screws; Mooring Anchors	
Alpine/TrusSteel Phone: 888-565-9181 Email: info1@TrusSteel.com Web: www.TrusSteel.com 	Cold formed steel trusses and truss anchoring hardware—TrusSteel Cold-Formed Steel trusses are easy to specify, design, handle and inspect. They install with rated connection hardware and require less bracing (due to superior stiffness). Order a free Truss Design Manual on CD containing CAD standard anchoring details, guide specifications, code reports, uplift information and more.										Cold-Formed Steel Framing Connections	
CINTEC North America Phone: 800-363-6066 Email: solutions@cintec.com Web: www.cintec.com	Cementitious Masonry Anchoring, Reinforcement & Blast Mitigation Systems	X	X	X			X	X	X		Seismic and Blast Mitigation Anchoring and Strengthening Systems	
Dywidag Systems International Phone: 630-739-1100 Email: dsiamerica@dsiamerica.com Web: www.dsiamerica.com 	Geotechnical Products and Services - Complete line of products for all your anchoring and post-tensioning applications, including tunneling and mining. Both strand and bar systems with various solutions for corrosion protection depending on temporary or permanent installations. Self-drilling DYWIDRILL anchors for challenging site conditions.	X				X		X				
Five Star Products Phone: 203-336-7900 Email: info@fivestarprouducts.com Web: www.fivestarprouducts.com	Five Star RS Anchor Gel (Anchor Bolt Adhesives)	X										
Heckmann Building Products, Inc. Phone: 800-621-4140 Email: info@heckmannbuildingprods.com Web: www.heckmannbuildingprods.com	Masonry and Concrete Accessories	X	X		X		X		X			
Helifix North America Phone: 888-992-9989 Email: psweeney@helifixna.com Web: www.helifix.com 	Helifix DryFix - economical, stress-free masonry stabilization in cavity and solid masonry construction. Simply drive a helifix stainless steel tie through the masonry, via a small pilot hole, using a unique installation tool. No expander devices or toxic chemicals are required!			X			X					
Hilti, Inc. Phone: 800-879-8000 Email: custserv@us.hilti.com Web: www.us.hilti.com 	Chemical Anchors - Hilti offers a complete line of high performing adhesive anchors. Fast cure hybrid adhesive or a high strength epoxy - we can help to choose the system that best fits your needs, even if you're fastening in wet, cold or hot environment or in diamond cored, oversized or unclean holes.	X	X	X	X		X		X	X	2003 IBC® Compliant Anchors	
	Anchors compliant to 2003 IBC® and beyond- To address the requirements of 2003 IBC® and beyond Hilti is the first supplier who offers expansion and undercut anchors with relevant approval. In 2007 we expect to have accordingly ICC evaluation reports for our popular HIT Adhesive Anchor System too. The applicable PROFIS Anchor design software is for free download.	X	X	X	X					X	X	2003 IBC® Compliant anchors (according to AC 193 or AC 308)
	Mechanical Anchors- Hilti mechanical expansion anchors offer superior performance with the most comprehensive range of approvals. Many sizes, different head styles and materials provide a maximum flexibility. From the versatile Kwik Bolt 3 to the 2003 IBC® compliant KB-TZ and HSL-3, Hilti has a suitable solution for you.	X	X	X	X			X		X	X	2003 IBC® Compliant anchors (according to AC 193 or AC 308)
Hobmann & Barnard, Inc. Phone: 631-234-0600 Email: weanchor@h-b.com Web: www.h-b.com 	Manufacturers of Masonry Anchors and Ties, Seismic Veneer Anchors, Adjustable Joint Reinforcement Systems, Weep Holes, Control Joints, Neoprene, Polyethylene Foam Products, Stainless Steel, Copper and Membrane Flashing Systems Since 1933.			X			X		X			
International Code Council (ICC) Phone: 888-ICC-SAFE ext. 33822 Email: support@ecodes.biz Web: www.ecodes.biz 	Enjoy the benefits of ICC's Internet Library! www.eCodes.biz offers you Internet access to codes by subscription or the opportunity to download electronic versions of codes to your desktop or laptop. View, search, and print or download the latest printings of International Codes, State Codes, Legacy Codes, and more at www.ecodes.biz .										Code Publications	
Kelken Construction Systems, Inc. Phone: 732-721-0249 Email: ken@kelken.com Web: www.kelken.com	Adhesive Anchors and Accessories	X	X	X		X	X	X	X	X	Removable anchors	
Powers Fasteners, Inc. Phone: 914-235-6300 Email: colasuonno@Powers.com Web: www.powers.com 	Powers Fasteners offers a complete line of mechanical and adhesive concrete anchoring systems that meet the new "Cracked Concrete" test and approval standards contained in the 2003 IBC and ACE 318 Appendix D. Powers Fasteners, formally known as The Rawplug Company, has been manufacturing Concrete Anchoring Systems since 1921.											
	Powers Fasteners heavy duty adhesive anchoring systems have been designed, formulated, tested and approved for use in cold, hot, damp and water filled environments and conditions. Powers Fasteners was formally known as RAWL.	X	X				X	X	X	X		Powder Actuated and Gas Fastening
	Powers Fasteners light, medium and heavy duty mechanical expansion anchors provide superior performance in concrete and masonry base materials. Powers Fasteners product stable also includes a complete line of direct fastening systems...for concrete, masonry, steel and wood base materials. Powers Fasteners was formally known as RAWL.											
Sandell Manufacturing Co., Inc. Phone: 518-357-9757 Email: moreinfo@sandellmfg.com Web: www.sandellmfg.com	Veneer Anchors & Triangle Ties						X		X

COMPANY	DESCRIPTION										
Simpson Strong-Tie Company Phone: 800-999-5099 Email: tmclain@stongtie.com Web: www.simpsonanchors.com 	Leading manufacturer of wood-to-concrete connectors offers code-approved anchors and ties: SSTB® Anchor Bolts' offset angle reduces side-bursting. HDU holdowns feature high capacity and low deflection. Many Strong-Tie holdowns no longer require stud bolts. HTT Tension Ties are single-piece formed. STHD and IIPAIID series Strap Tie Holdowns are embedded in the pour.				X						
Simpson Strong-Tie Company Phone: 800-999-5099 Email: jliebreich@stongtie.com Web: www.simpsonanchors.com 	Products include wedge, sleeve, and drop-in anchors, and the Titen IID® high-strength anchor. The threads on the Titen HD undercut the base concrete material as it is driven into the hole during installation, resulting in a high-strength anchor that is vibration resistant. The Heli-tic® anchors a building facade to main structure.	X	X	X			X	X	X	X	
Simpson Strong-Tie Company Phone: 800-999-5099 Email: jliebreich@stongtie.com Web: www.simpsonanchors.com 	Epoxy and acrylic based anchoring adhesives ideal for threaded rod and rebar dowel anchoring. Bond-Max™ all-temperature formula performs down to 0° F. Crack-Pac Flex 1120 seals leaking cracks in concrete and solid masonry. SET Epoxy-Tie® features some of the highest loads in the industry; available in handy 10 oz. cartridge.										Chemical post-installation anchoring
Williams Form Engineering Corp. Phone: 616-866-0815 Email: williams@williamsform.com Web: www.williamsform.com 	Williams Form Engineering Corporation has been providing threaded steel bars and accessories for rock anchors, soil anchors, high capacity concrete anchors, micro piles, tie rods, tie backs, strand anchors, self drilling anchors, post tensioning systems, and concrete forming hardware systems in the construction industry for over 80 years.
