ASDIP Structural Software
Phone: 407-284-9202
Email: support@asdipsoft.com
Web: www.asdipsoft.com
Product: ASDIP Suite
Description: Includes the design of base plates, anchor rods, shear lugs, spread and combined footings, pile caps, concrete beams and columns, out-of-plane concrete and masonry walls, cantilever, restrained, and counterfort retaining walls, steel and composite beams, shear and moment connections, etc. per the latest design codes.

LNA Solutions, Inc.
Phone: 888-724-2323
Email: inquiries@lnasolutions.com
Web: www.lnasolutions.com
Product: BeamClamp
Description: An extensive range of clamping products designed for making steel-to-steel connections without the need for drilling or welding. The clamping system provides a guaranteed connection and a safe working load. Perfect for areas where drilling or welding are not permitted, or access and power are restricted.

RED SPEC
Phone: 866-859-6757
Email: info@redbuilt.com
Web: www.redbuilt.com
Product: RedSpec
Description: A convenient, user-friendly design program that lets you quickly and efficiently create floor and roof design specifications using Red-L™ joists, RedBuilt open-web trusses, RedLam™ LVL, glulam beams, and dimensional lumber. RedSpec is provided free of charge to registered users.

ENERCALC, Inc.
Phone: 800-424-2252
Email: info@enercalc.com
Web: https://enercalc.com
Product: Structural Engineering Library / ENERCALC SE Cloud/RetainPro
Description: Major ENERCALC Build 20 subscription improvements: ENERCALC 3D FEM and RetainPro modules are now part of SEL. New Steel Base Plate is FEM-powered. New Fitch Plated Wood Beam module. No more hand-calculated Z values! Share subscription seats between installed software and cloud usage! SELs windows are bigger, cleaner, better organized.

Losch Software Ltd
Phone: 323-592-3299
Email: loschinfo@gmail.com
Web: www.loschsoft.com
Product: LECPres
Description: Can analyze prestressed and/or mild reinforced simple span or cantilevered concrete beams and slabs. Handling analysis is also included. A 15-day trial version is available.

NATIONAL COUNCIL OF EXAMINERS FOR ENGINEERING AND SURVEYING
Phone: 800-250-3196
Email: jbarker@ncees.org
Web: www.ncees.org
Product: Professional Engineering License
Description: The National Council of Examiners for Engineering and Surveying (NCEES) is a nonprofit organization dedicated to advancing professional licensure for engineers and surveyors.

IES, Inc.
Phone: 800-707-0816
Email: info@iesweb.com
Web: www.iesweb.com
Product: IES Building Suite
Description: For less than $200/month, get quality software to analyze and design your buildings. Easily tackle your foundations, structural framing, and connections. IES tools are so incredibly simple that customers are often solving complex FEA problems within one day of grabbing the free trial. Start getting results today!

National Council of Examiners for Engineering and Surveying

RISA Tech
Phone: 949-951-5815
Email: info@risa.com
Web: www.risa.com
Product: ADAPT-PT/RC
Description: An internationally recognized and established analysis and design software for reinforced concrete and post-tensioned slabs and beams. The easy-to-use modeling and design environment enable any user to quickly produce optimized designs and quantity take-offs.

Product: ADAPT-Builder
Description: Powerful and easy-to-use 3-D finite element software for multistory reinforced concrete and post-tensioned buildings and structures. Builder delivers comprehensive workflows for complete analysis and design. Combine gravity, lateral, and post-tensioning actions for efficient, complete, and accurate design. Integrate with various BIM software for seamless project deliverables.

RIVA Tech
Phone: 713-752-1914
Email: stephanie.black@klstrategies.com
Web: www.victaulicsoftware.com
Product: Victaulic Tools for AutoCAD
Description: An all-new, free tool that provides AutoCAD users the same classic routing features and drawing productivity gains that were previously only available in the Victaulic Tools for Revit platform. The add-on provides toolsets engineered for civil, industrial, plant, or mechanical projects, and includes features to simplify pipe routing, procurement, and exporting bill-of-materals.

Vicison Inc
Phone: 650-218-0008
Email: info@visicon.com
Web: https://visicon.com
Product: Vicison Model Review and Checking
Description: Gives structural engineers unprecedented visibility into all of the design, analysis, and production BIM models they use and review. No matter the source (Revit, IFC, ETABS, ADAPT, point cloud, etc.), our solution provides an easy and powerful way to understand, compare, and check project models.
