

ASDIP Structural Software

Phone: 407-284-9202
 Email: support@asdipsoft.com
 Web: www.asdipsoft.com
Product: ASDIP SUITE

Description: Includes the design of beams, columns, walls, base plates, anchor rods, shear lugs, retaining walls, moment connections and more, per the latest design codes. For over 30 years, we have developed powerful yet simple-to-use tools to easily analyze, design, optimize, and check your structural members.

Hohmann & Barnard

Phone: 800-645-0616
 Email: jenniferm@h-b.com
 Web: h-b.com

Product: ProWall Tools Featuring Thermal Brick Support (TBS)

Description: Free software for architects, mason contractors, specifiers, and designers, allows users to easily incorporate TBS into projects. Brick support design that can move the shelf angle away from the wall, reducing thermal transfer. Allows fast analysis of a brick support design when entering design parameters into a picture graphic.

RedBuilt

Phone: 866-859-6757
 Email: info@redbuilt.com
 Web: www.redbuilt.com

Product: RedSpec™

Description: A convenient, user-friendly design program that lets you quickly and efficiently create floor and roof design specifications using Red-I™ joists, RedBuilt™ open-web trusses, RedLam™ LVL, glulam beams, and dimensional lumber. RedSpec is provided free of charge to registered users. For support, contact us by email at RedSpec@RedBuilt.com.

ENERCALC, LLC

Phone: 800-424-2252
 Email: info@enercalc.com
 Web: <https://enercalc.com>

Product: Structural Engineering Library/ ENERCALC 3D/ENERCALC for Revit

Description: ENERCALC's 40th year brings new modules: Steel Base Plate w/FEM, General Footing w/FEM, 7 retaining wall modules, and ENERCALC 3D. We have introduced substantial interface and performance improvements, plus ENERCALC for Revit (optional). Meet deadlines by saving time with ENERCALC while saving money with budget-friendly monthly and annual subscriptions.

IES Easy Structural Software

Phone: 800-707-0816
 Email: info@iesweb.com
 Web: www.iesweb.com

Product: IES Building Suite

Description: When you need quick, easy, and versatile structural analysis and design, look no further than IESWeb.com. Download any product in 2 minutes for a free trial. See pricing and licensing options online. Proven by thousands of engineers for over 27 years. Fully supported.

RISA Technologies

Phone: 949-951-5815
 Email: candicec@risa.com
 Web: risa.com

Product: RISA-3D

Description: The next step in the evolution of the structural design software. With features including the design of cold-formed steel, AISC and ACI code updates, seismic improvements, and the introduction of orthotropic plates, engineers can effortlessly complete complex projects utilizing any material. Integrate seamlessly with Revit for easy modeling.

* Discount excludes Premium Package offer and Bundles.

Design Guide on the ACI 318 Building Code Requirements for Structural Concrete

With OVER 990 pages and 140 worked-out examples, this unique Design Guide assists in the proper application of the provisions in the 2019 edition of Building Code Requirements for Structural Concrete (ACI 318-19) for cast-in-place concrete buildings with nonprestressed reinforcement.

2020, 1st Edition
 Print/PDF Version: \$149.95 member / \$199.95 non-member

NEW!

Buy the **PREMIUM PACKAGE** and get both at a special rate!

CRSI Design Checklist Suite

The new **Design Checklist Suite** includes all 13 Design Checklists at a discounted price with a free custom binder to safely store the Checklists in one place. Calculators, in the form of Microsoft Excel™ spreadsheets, are provided for each Design Checklist which expedite the overall checking procedure. *Printed on synthetic paper for durability!*

Print Version Only: \$74.95 member / \$149.95 non-member
 Individual Design Checklists available, pricing varies by product.

CRSI's Design Guide and Design Checklists are indispensable resources for structural engineers, educators, students, building officials, and individuals studying for licensing exams.

Steel Tube Institute

Email: hssinfo@steeltubeinstitute.org
 Web: steeltubeinstitute.org

Product: HSS Connex

Description: A free web-based tool that offers designers a simple way to check HSS wall thicknesses to aid in efficient HSS connection design. These local limit state checks are helpful to ensure HSS wall thicknesses are adequate at connections.

Trimble

Phone: 678-737-7379
 Email: jodi.hendrixson@trimble.com
 Web: www.tekla.com/us

Product: Tekla Tedds

Description: Automates repetitive and error prone structural and civil calculations, allowing engineers to perform 2-D frame analysis, access a large range of automated structural and civil calculations to U.S. codes, and speed up daily structural calculations.

Product: Tekla Structural Designer

Description: Engineers have the power to analyze and design multi-material buildings efficiently and cost effectively. Fully automated and packed with unique features for optimized concrete and steel design, Tekla Structural Designer helps engineering businesses win more projects and maximize profits.
